TYPE TO LEARN SERIES

Type to Learn® 4: Agents of Information (P)

Grades K–12. This engaging new product wraps touch-typing keyboarding instruction into an intriguing, futuristic world of adventure and information, where students are recruited to help save the world's most vital information from being lost forever. Built on a proven pedagogy of sequential skills-building instruction, Type to Learn 4's expanded curriculum provides 36 new, leveled lessons complete with diagnostic pre-test, review, demonstration, practice exercises and activities, multiple formative assessments, and automatic, personalized remediation. Interfaces and content difficulty vary by grade level, making this program truly expandable for your K-12 needs.

Enhanced reporting features streamline assessment! Accuracy, words per minute speed, and new adjusted words per minute are tracked through all lessons and activities. Newly developed error reports give added detail on students' successes and problem areas. Extensive new administration options and settings make student customization easier than ever. Improved features include additional accessibility options for sight and hearing impaired learners, and the ability to import teacher-created content. Type to Learn 4 is a definite must have for any keyboarding curriculum!

Vista and Mac Intel Ready. Runs on Mac OS X 10.5 Leopard!

Type Through Time (D, P)

Grades 3 and up. Increase speed and accuracy – and provide instruction for the numeric keypad – with 100 practice sessions that strengthen student keyboarding skills. Four skills-building activities motivate students with ongoing words-per-minute and accuracy reports as they become adept at the keyboard with practice materials appropriate to their skill levels.

Mac Intel Ready.

"The best software program for students in grades 4-8. Type to Learn® beats out Mavis Beacon® in grades K-3 and 4-8. One reader said she appreciated that Type to Learn® could be individualized for each grade level and student..."

– eSchool News, September 2003

"The best tutorial... is Type to Learn®"

– Linda Knapp, Seattle Times, June 2003

OS X Native/XP Compatible

3D hands help students identify the correct hand placement and reaches to new keys.

Type to Learn® Assessment (D, T)

Grades 3 and up. Evaluate student keyboarding progress with a full array of tests that correspond to the first 22 Type to Learn® lessons. Complete reporting features make it easy to assess student skills. With flexible teacher control options, this program is adaptable to any instructional situation. Perfect for the older learner! Standalone is Vista Ready.

Type to Learn® Jr. (D)

Grades K-2. One of the first steps to computer literacy is learning how to use the keyboard! Age-appropriate instruction and three practice activities help students use the computer with greater ease, as they progress from keyboard awareness to typing carefully selected words into short sentences.

Vista and Mac Intel Ready.

Type to Learn® Jr.: New Keys for Kids (D, T, P)

Grades 1-3. With new keys to learn, early keyboarders build their skills while they practice. Expanding on the Type to Learn® Jr. basics of posture, hand placement, and keyboard awareness, this program's three activity areas focus on the Home Row keys, the shift key, number keys, and Internet symbols.

Vista Ready.

Type for Fun! (P)

Grades 3 and up. Improve student speed and accuracy with this fun practice program. Four fast-paced activities are designed to motivate students to practice typing. They are challenged to increase their speed to 25, then 40, and finally 60 words-per-minute using all the letters, numbers, and punctuation while maintaining accuracy.

Each letter and number is introduced individually and reviewed periodically.

Students help Cassie by typing the correct numbers and are rewarded with exciting animations.
